Beaver	9
China	0
Russia	0
USA	1

ABOUT THIS MAP

This map lists all unclassified Cyber Squirrel Operations that have been released to the public that we have been able to confirm. There are many more executed ops than displayed on this map however, those ops remain classified.

Confirmation for all ops has been perserved by the [Internet Archive's WayBack Machine](#) whenever possible.

"I don't think paralysis [of the electrical grid] is more likely by cyberattack than by natural disaster. And frankly the number-one threat experianced to date by the US electrical grid is squirrels." - John C. Inglis, Former Deputy Director, National Security Agency 2015.07.09

If you have confirmation of additional unclassified ops please email ops AT cybersquirrel1 DOT com

NATION STATE OPERATIONS

Of all the claimed nation state cyber attacks that have impacted critical infrastructure that we have been made aware of such as the Brazil Blackouts, German Steel Plant event, and the Ukrainian power outages only the US lead Stuxnet operation can be confirmed at this time.

[Squirrels are bigger threat than hackers](#)
