

RSA NetWITNESS

Thank you for visiting the former NetWitness website.

RSA NetWitness is now part of the EMC website located at www.emc.com/security/security-analytics/security-analytics.htm

RSA Security Analytics is a security monitoring platform that leverages and extends the architecture and analytics of RSA NetWitness. Security Analytics redefines SIEM by combining network monitoring, traditional log-centric SIEM, forensics, compliance, and big data management and analytics.

RSA Security Analytics Platform

Learn about the RSA Security Analytics platform, comprised of the Capture Infrastructure and the Security Analytics Warehouse.

RSA Security Analytics Applications

See how RSA Security Analytics enables a comprehensive set of powerful analytics through a unified, browser-based interface.

RSA Security Analytics Integration Options

Discover how Security Analytics integrates with other RSA products to enrich your deployment.

EMC builds information infrastructures and virtual infrastructures to help people and businesses around the world unleash the power of their digital information. EMC offerings in backup and recovery, enterprise content management, unified storage, big data, enterprise storage, data federation, archiving, security, and deduplication help customers move to and build IT trust in their next generation of information management and enable them to offer IT-as-a-Service as part of their journey to cloud computing.

We are an Equal Employment Opportunity employer that values the strength diversity brings to the workplace. All qualified applicants, regardless of race, color, religion, gender, sexual orientation, marital status, gender identity or expression, national origin, genetics, age, disability status, protected veteran status, or any other characteristic protected by applicable law, are strongly encouraged to apply.
