Information Security Experts Say

"The ISPME guidelines have saved three months of manual effort that would have been required to research and write policies."
Douglas Feil
EDP Audit Manager, City & County of San Francisco

"This is the gold standard Policy reference for any serious security practitioner to have in their arsenal of tools, a must have! The instructions and examples for establishing security policies and implementation processes add real value to this edition."
John B. Kramer, CISSP, CISA
Information Security Manager - UPMCHS

"Wood has created a complete kit of proven best practices that any organization can use and customize to make policies meeting their exact needs."
Jay Heiser
Columnist, "Information Security" magazine
